

10% Tool Life Savings from 0.0001" Better TIR

Customer's report that for every 0.0001" improvement in TIR they are seeing 10% tool life improvement in drilling and milling applications. It makes sense, improving the TIR allows the cutter to engage efficiently.

PIONEER has Cost Effective options
to help you save that 10% and More!

We even have a promotion,
Buy 7 get the 8th Free!

PROVE IT!

GTO's have proven that when we run SX
against ER, we can pay for the test with
cutter savings in 2 weeks or less!

Let us Prove the savings to you!

Once we prove the savings we will apply the holder to the promo and
with the purchase of 7 more you get the whole test for free!

Don't wait, start saving money on your perishables NOW!
